2019 Theme: 'Delivering Value Through Disruption'

Today's PMOs operate in an environment of dynamic change, punctuated by ambiguity about the future. It is in this non-linear and complex world of opportunity that PMOs must forge and evolve their value proposition. Successful PMOs will partner with executives as strategic leaders, leading a culture of business agility through the design, development and implementation of projects and programs.

But how do you position yourself to play a more central role within your organisation? Once there, how can you capitalise on emerging opportunities in such a volatile setting? Join us to discover the secrets of delivering value in a disruptive environment.
